## NEWLY AVAILABLE GENERICS

---

GENERIC DRUG NAME	STRENGTH & DOSAGE FORM	GENERIC MANUFACTURER	BRAND NAME
Erythromycin Ethylsuccinate	200mg/5ml suspension reconstituted	ANI Pharmaceuticals	E.E.S 200 and Eryped 200
Levalbuterol Tartrate	45mcg/actuation HFA	Actavis Pharma	Xopenex HFA
Neostigmine Methylsulfate	3mg/3mL (1mg/mL) syringe	West Ward Pharmaceuticals	Bloxiverz
Hydrocortisone Acetate	2.5% cream	Perrigo	Micort-HC
Abacavir sulfate/ Lamivudine	600mg-300mg tablet	Teva	Epzicom

## NEW DRUG ENTITIES/COMBINATIONS/STRENGTHS

DESCRIPTION	BRAND NAME	GENERIC NAME	STRENGTH	NOTES
ANTI-OBESITY SEROTONIN 2C RECEPTOR AGONISTS	BELVIQ XR	LORCASERIN HCL	20 mg	New Strength and Dosage Form
TOPICAL ANTI- INFLAMMATORY, NSAIDS	NUDICLO	DICLOFENAC SODIUM/ CAPSAICIN	1.5 %-0.025 %	New Combination
VASODILATORS, CORONARY	GONITRO	NITROGLYCERIN	400 mcg	New Dosage Form
ANTIHYPERGLYCE MIC-SGLT2 INHIBITOR & BIGUANIDE COMB	INVOKAMET XR	CANAGLIFLOZIN/ METFORMIN HCL	50 mg-500 mg	New Dosage Form
ANTIHYPERGLYCE MIC-SGLT2 INHIBITOR & BIGUANIDE COMB	INVOKAMET XR	CANAGLIFLOZIN/ METFORMIN HCL	50 mg-1,000 mg	New Dosage Form
ANTIHYPERGLYCE MIC-SGLT2 INHIBITOR & BIGUANIDE COMB	INVOKAMET XR	CANAGLIFLOZIN/ METFORMIN HCL	50 mg-1,000 mg	New Dosage Form
ANTIHYPERGLYCE MIC-SGLT2 INHIBITOR & BIGUANIDE COMB	INVOKAMET XR	CANAGLIFLOZIN/ METFORMIN HCL	150 mg-1,000 mg	New Dosage Form
CONTRACEPTIVES, ORAL	TAYTULLA	NORETHINDRONE- E.ESTRADIOL-IRON	1 mg-20 mcg (24)/75 mg (4)	New Combination
PLATELET AGGREGATION INHIBITORS	YOSPRALA	ASPIRIN/ OMEPRAZOLE	81 mg-40 mg	New Combination
PLATELET AGGREGATION INHIBITORS	YOSPRALA	ASPIRIN/ OMEPRAZOLE	325 mg-40 mg	New Combination
TOPICAL	DERMACINRX	CLOTRIMAZOLE/	1 %-0.05 %-20 %	New Combination

DESCRIPTION	BRAND NAME	GENERIC NAME	STRENGTH	NOTES
ANTIFUNGAL/ANTI-INFLAMMATORY, STEROID AGENT	THERAZOLE PAK	BETAMETH DIP/ ZINC		
GENETIC D/O TX-EXON SKIPPING ANTISENSE OLIGONUCLEO	EXONDYS 51	ETEPLIRSEN	100 mg/2 mL (50 mg/mL)	New Entity
GENETIC D/O TX-EXON SKIPPING ANTISENSE OLIGONUCLEO	EXONDYS 51	ETEPLIRSEN	500 mg/10 mL (50 mg/mL)	New Entity
ANTISERA	CUVITRU	IMMUN GLOB G(IGG)/GLY/IGA OV50	8 gram/40 mL (20 %)	New Strength
ANTISERA	CUVITRU	IMMUN GLOB G(IGG)/GLY/IGA OV50	1 gram/5 mL (20 %)	New Strength
ANTISERA	CUVITRU	IMMUN GLOB G(IGG)/GLY/IGA OV50	2 gram/10 mL (20 %)	New Strength
ANTISERA	CUVITRU	IMMUN GLOB G(IGG)/GLY/IGA OV50	4 gram/20 mL (20 %)	New Strength
MONOCLONAL ANTIBODY-HUMAN INTERLEUKIN 12/23 INHIB	STELARA	USTEKINUMAB	130 mg/26 mL	New Strength
CYSTIC FIBROSIS-CFTR POTENTIATOR-CORRECTOR COMBIN.	ORKAMBI	LUMACAFTOR/IVA CAFTOR	100-125 MG	New Combination
PRENATAL VITAMIN PREPARATIONS	TRICARE PRENATAL	PRENATAL VIT #113/IRON/FOLAT E	4.5 MG-1MG	New Combination
ANTIMIGRAINE	TREXIMET	SUMATRIPTAN	10 MG-60MG	New Combination

DESCRIPTION	BRAND NAME	GENERIC NAME	STRENGTH	NOTES
PREPARATIONS		SUCC/NAPROXEN SOD		
ANTIEMETIC/ANTI VERTIGO AGENTS	SUSTOL	GRANISETRON	10MG/0.4ML	New Strength and Dosage Form
PHOTOACT, TOPICAL ANTINEOPLAST, PREMALIGNANT LESIONS	AMELUZ	AMINOLEVULINIC ACID HCL	10%	New Strength and Dosage Form
EYE ANTI-INFLAMMATORY AGENTS	BROMSITE	BROMFENAC SODIUM	0.075%	New Strength
VITAMIN D PREPARATIONS	ROXIFOL-D	VITAMIN D3/FOLIC ACID	500 unit-1 mg	New Strength
PANCREATIC ENZYMES	PANCREAZE	LIPASE/PROTEASE/ AMYLASE	4,200 unit-14,200 unit-24,600 unit	Reused NDC with NEW GCN, GCN_SEQNO and MEDID
PANCREATIC ENZYMES	PANCREAZE	LIPASE/PROTEASE/ AMYLASE	10,500 unit-35,500 unit-61,500 unit	Reused NDC with NEW GCN, GCN_SEQNO and MEDID
PANCREATIC ENZYMES	PANCREAZE	LIPASE/PROTEASE/ AMYLASE	16,800 unit-56,800 unit-98,400 unit	Reused NDC with NEW GCN, GCN_SEQNO and MEDID
PANCREATIC ENZYMES	PANCREAZE	LIPASE/PROTEASE/ AMYLASE	21,000 unit-54,700 unit-83,900 unit	Reused NDC with NEW GCN, GCN_SEQNO and MEDID
LIPOTROPICS	VASCEPA	ICOSAPENT ETHYL	0.5 gram	New Strength
TOPICAL ANTI-INFLAMMATORY, NSAIDS	DICLOZOR	DICLOFENAC SODIUM	1 %	New Strength and Dosage Form
TOPICAL LOCAL ANESTHETICS	ANASTIA	LIDOCAINE HCL	2.75 %	New Strength

DESCRIPTION	BRAND NAME	GENERIC NAME	STRENGTH	NOTES
TOPICAL ANTI-INFLAMMATORY STEROIDAL	MICORT-HC	HYDROCORTISONE ACETATE	2.5 % (4 gram)	New Dosage Form
INTRA-UTERINE DEVICES (IUDS)	KYLEENA	LEVONORGESTREL	17.5 mcg/24 hour (5 years)	New Strength
DRUGS TO TX CHRONIC INFLAMMATORY DISEASE OF COLON	INFLECTRA	INFLIXIMAB-DYYB	100 mg	New Entity

## NEW INDICATIONS (EXISTING DRUGS)

---

### TECENTRIQ®

**October 18, 2016**

Genentech announced that the U.S. Food and Drug Administration (FDA) approved TECENTRIQ® (atezolizumab) for the treatment of people with metastatic non-small cell lung cancer (NSCLC) who have disease progression during or following platinum-containing chemotherapy, and have progressed on an appropriate FDA-approved targeted therapy if their tumor has EGFR or ALK gene abnormalities. This approval is based on results from the randomized Phase III OAK and Phase II POPLAR studies. The largest study, OAK, showed that TECENTRIQ helped people in the overall study population live a median of 13.8 months, 4.2 months longer than those treated with docetaxel chemotherapy (median overall survival [OS]: 13.8 vs. 9.6 months; HR = 0.74, 95% CI: 0.63, 0.87). The study enrolled people regardless of their PD-L1 status and included both squamous and non-squamous disease types.

Source: Genentech

### LUCENTIS®

**October 14, 2016**

Genentech announced that the U.S. Food and Drug Administration (FDA) approved the Lucentis® (ranibizumab injection) 0.5 mg prefilled syringe (PFS) as a new method of administering the medicine. Like the Lucentis 0.5 mg vial, the 0.5 mg PFS is approved to treat people with wet age-related macular degeneration (AMD) and macular edema after retinal vein occlusion (RVO). The Lucentis PFS is the first syringe prefilled with an anti-VEGF medicine FDA-approved to treat two eye conditions.

### Flublok® Quadrivalent Influenza Vaccine

**October 11, 2016**

Protein Sciences Corporation announced today that the FDA has approved its quadrivalent formulation of Flublok® influenza vaccine. Flublok Quadrivalent protects against 4 strains of influenza, 3 of the same strains found in trivalent Flublok plus an additional B strain. Significantly, Flublok Quadrivalent is the first and only high antigen content quadrivalent fluvaccine approved by FDA. It contains 3x more active ingredient than all other quadrivalent vaccines, making it a great choice for seniors and those with compromised immune systems, among others. In a clinical study of 9,000 adults 50 years of age and older, people who received Flublok Quadrivalent were over 40% less likely to get cell-culture confirmed influenza than those that received a leading egg-produced quadrivalent flu vaccine. These results are relevant for trivalent Flublok, as the H3N2 component of the vaccine that is shared between trivalent and Flublok Quadrivalent predominantly contributed to the improved efficacy.

## **ORKAMBI®**

**September 28, 2016**

Vertex Pharmaceuticals Incorporated today announced that the U.S. Food and Drug Administration (FDA) approved ORKAMBI® (lumacaftor/ivacaftor) for use in children with cystic fibrosis (CF) ages 6 through 11 who have two copies of the F508del mutation. People with this mutation represent the largest population of those with CF, a rare, life-threatening disease. ORKAMBI is the first and only medicine to treat the underlying cause of CF for people with this mutation. It was previously approved by the FDA for use in people ages 12 and older with two copies of the F508del mutation. With today's approval, approximately 11,000 people with CF are eligible for treatment with ORKAMBI in the United States. ORKAMBI will be available for eligible children ages 6 through 11 in the United States as soon as possible. Vertex also today lowered its guidance for 2016 ORKAMBI revenues to a range of \$950 million to \$990 million.

## **STELARA®**

**September 26, 2016**

Janssen Biotech, Inc., announced today that the U.S. Food and Drug Administration (FDA) has approved STELARA® (ustekinumab) for the treatment of moderately to severely active Crohn's disease in adults (18 years or older) who have failed or were intolerant to treatment with immunomodulators or corticosteroids but never failed treatment with a tumor necrosis factor (TNF) blocker, or who failed or were intolerant to treatment with one or more TNF blockers. STELARA® is the first biologic therapy for Crohn's disease targeting interleukin (IL)-12 and IL-23 cytokines, which play a key role in inflammatory and immune responses.

Source: Janssen Biotech, Inc.

## **ILARIS®**

**September 23, 2016**

Novartis announced today that the US Food and Drug Administration (FDA) has granted three simultaneous approvals for the expanded use of Ilaris® (canakinumab) to treat three rare and distinct types of Periodic Fever Syndromes. Ilaris is the first and only FDA approved biologic treatment for Tumor Necrosis Factor- Receptor Associated Periodic Syndrome (TRAPS), Hyperimmunoglobulin D Syndrome (HIDS)/Mevalonate Kinase Deficiency (MKD) and Familial Mediterranean Fever (FMF). All three conditions are part of a group of rare autoinflammatory diseases called Periodic Fever Syndromes, which are also referred to as Hereditary Periodic Fevers (HPF). The most common syndrome is FMF, which mainly affects people of Eastern Mediterranean ancestry. It affects 1 in 250 to 1 in 1,000 individuals in these populations, many of whom are children.

## FDA NEWS/BULLETINS/ADVISORIES/SAFETY ALERTS

---

### Direct-Acting Antivirals for Hepatitis C: Drug Safety Communication - Risk of Hepatitis B Reactivating [10/4/2016]

**ISSUE:** The FDA is warning about the risk of hepatitis B virus (HBV) becoming an active infection again in any patient who has a current or previous infection with HBV and is treated with certain direct-acting antiviral (DAA) medicines for hepatitis C virus. In a few cases, HBV reactivation in patients treated with DAA medicines resulted in serious liver problems or death. HBV reactivation usually occurred within 4-8 weeks. As a result, FDA is requiring a Boxed Warning, our most prominent warning, about the risk of HBV reactivation to be added to the drug labels of these DAAs directing health care professionals to screen and monitor for HBV in all patients receiving DAA treatment. This warning will also be included in the patient information leaflet or Medication Guides for these Medicines.

**BACKGROUND:** Direct-acting antiviral medicines are used to treat chronic hepatitis C virus (HCV) infection, an infection that can last a lifetime. These medicines reduce the amount of HCV in the body by preventing HCV from multiplying, and in most cases, they cure HCV. Without treatment, HCV can lead to serious liver problems including cirrhosis, liver cancer, and death (see List of Direct-Acting Antivirals in the FDA Drug Safety Communication). FDA identified 24 cases of HBV reactivation reported to FDA and from the published literature in HCV/HBV co-infected patients treated with DAAs during the 31 months from November 22, 2013 to July 18, 2016. This number includes only cases submitted to FDA, so there are likely additional cases about which FDA is unaware. Of the cases reported, two patients died and one required a liver transplant. HBV reactivation was not reported as an adverse event in the clinical trials submitted for the DAA approvals because patients with HBV co-infection were excluded from the trials. See the data summary section in the Drug Safety Communication for more detailed information.

**RECOMMENDATION:** Health care professionals should screen all patients for evidence of current or prior HBV infection before starting treatment with DAAs, and monitor patients using blood tests for HBV flare-ups or reactivation during treatment and post-treatment follow-up.

Patients should tell your health care professional if you have a history of hepatitis B infection or other liver problems before being treated for hepatitis C. Do not stop taking your DAA medicine without first talking to your health care professional. Stopping treatment early could result in your virus becoming less responsive to certain hepatitis C medicines. Read the patient information leaflet or Medication Guide that comes with each new prescription because the information may have changed. Contact your health care professional immediately if you develop fatigue, weakness, loss of appetite, nausea and vomiting, yellow eyes or skin, or light-colored stools, as these may be signs of serious liver problems. Healthcare professionals and patients are encouraged to report adverse events or side effects related to the use of these products to the FDA's MedWatch Safety Information and Adverse Event Reporting Program:

- Complete and submit the report Online: [www.fda.gov/MedWatch/report](http://www.fda.gov/MedWatch/report)
- Download form or call 1-800-332-1088 to request a reporting form, then complete and return to the address on the pre-addressed form, or submit by fax to 1-800-FDA-0178

## Hyoscyamine sulfate 0.125mg by Virtus Pharmaceuticals: Recall - Superpotent and Subpotent Test Results

[9/15/2016]

**ISSUE:** Virtus Pharmaceuticals Opco II, LLC (Virtus) is voluntarily recalling seven batches of Hyoscyamine sulfate (0.125mg) to the consumer level which include the tablet, sublingual, and orally disintegrating tablet form. This recall is being initiated due to both superpotent and subpotent test results. All of these batches were manufactured by Pharmatech LLC for distribution by Virtus throughout the United States and Puerto Rico. See the press release for a listing of affected batch numbers. Taking a product that is superpotent could result in hot/dry skin, fever, blurred vision, sensitivity to light, dry mouth, unusual excitement, fast or irregular heartbeat, dizziness, an inability to completely empty the bladder, and seizures. The severity of the adverse event would depend on how superpotent the tablet was. Adverse events such as clotted blood within the tissues and fractures could occur, as a result of falls from dizziness or seizures if the strength is particularly high. To date, Virtus has received three adverse event reports involving hallucinations, stroke-like symptoms, confusion, dizziness, blurred vision, dry mouth, slurred speech, imbalance, and disorientation.

**BACKGROUND:** Hyoscyamine sulfate is an anticholinergic agent which blocks the action of acetylcholine and is used to treat diseases like asthma, incontinence, stomach cramps, peptic ulcers, control gastric secretion, intestinal spasm and other bowel disturbances. These products were distributed Nationwide in the U.S. and Puerto Rico starting on March 11, 2016, to distributors, hospitals, and retail pharmacies.

**RECOMMENDATION:** Virtus is notifying its distributors and retailers by letter and email and is arranging for return of all recalled drug product. Consumers, distributors, and retailers that have the hyoscyamine sulfate product lots listed above should stop using/distributing and return to place of purchase. Healthcare professionals and patients are encouraged to report adverse events or side effects related to the use of these products to the FDA's MedWatch Safety Information and Adverse Event Reporting Program:

- Complete and submit the report Online: [www.fda.gov/MedWatch/report](http://www.fda.gov/MedWatch/report)
- Download form or call 1-800-332-1088 to request a reporting form, then complete and return to the address on the pre-addressed form, or submit by fax to 1-800-FDA-0178

### Preteens need only 2 HPV shots, not 3, CDC says

**October 19, 2016**

It's now easier for preteens to get the cervical cancer vaccine. The government on Wednesday quickly adopted a recommendation that preteens get two shots instead of three and space them further apart. Health officials hope that will boost the number of girls and boys who get vaccinated.

Source: yahoo.com

### Prostate cancer hormone therapy tied to higher dementia risk

**October 18, 2016**

Men who take hormone therapy for prostate cancer may have a higher risk of dementia than patients who receive different treatment for these malignancies, a U.S. study suggests. Prostate cancer cells need testosterone to grow and spread. Researchers focused on a common treatment known as androgen deprivation therapy (ADT), which works by depriving tumor cells of testosterone. Side effects can include sexual dysfunction, weight gain and fatigue.

### Statins Often Interact With Other Heart Drugs

**October 17, 2016**

Cholesterol-lowering statins can interact with other drugs prescribed for heart disease. But there are ways to navigate the problem, according to new recommendations from the American Heart Association. Statins are among the mostly widely prescribed drugs in the United States. Roughly onequarter of Americans age 40 and up are on a statin, according to a 2014 study by the U.S Centers for Disease Control and Prevention.

### Study links antidepressants in pregnancy with language disorders

**October 12, 2016**

Selective serotonin reuptake inhibitors, known as SSRIs, are the most common type of antidepressants prescribed to pregnant women. Yet a new study indicates that when taken during pregnancy, the drugs are associated with a higher risk of language disorders, including dyslexia, in offspring.

### **FDA clears Xarelto blood thinner despite faulty trial device**

**October 11, 2016**

The U.S. Food and Drug Administration on Tuesday said it has determined the widely-used blood thinner Xarelto to be safe and effective for patients with the heart condition atrial fibrillation after serious doubts arose over the major study used to gain approval of the drug.

### **High blood pressure drugs impact depression, bipolar disorder**

**October 11, 2016**

Depression and cardiovascular disease are major contributors to the global burden of disease. A bidirectional relationship is thought to exist between depression and heart disease due to the functional changes that underlie both conditions. Bipolar disorder is associated with an increased risk of cardiovascular mortality and high blood pressure, whereas major depressive disorder is associated with an increased risk of high blood pressure.

### **Botox shots little better than nerve stimulation for incontinence**

**October 4, 2016**

Botox injections may be slightly better at reducing urinary incontinence in some older women than InterStim, an implanted bladder control device, results of a U.S. trial suggest. Researchers tested onabotulinumtoxinA (Botox) against InterStim in patients with overactive bladder who couldn't tolerate or didn't respond to other drugs or treatments such as pelvic floor muscle training or fluid restriction.

### **Some Increased Bleeding Risk Seen With Blood Thinner Xarelto Vs. Pradaxa**

**October 3, 2016**

The blood thinner Xarelto may pose a slightly greater risk of serious bleeding than Pradaxa in patients with the abnormal heartbeat known as atrial fibrillation, new research suggests. Most patients with the condition take a blood thinner to reduce the risk of stroke. Although these drugs help prevent stroke, they can also cause uncontrollable bleeding, which can be fatal, the researchers said.

### **HPV Vaccine More Effective Than Thought: Study**

**September 29, 2016**

The vaccine against human papillomavirus (HPV) infection, which doctors believe causes most cases of cervical cancer, appears even more effective than believed, a new study finds. "After eight years of

vaccination, the reduction in the incidence of cervical neoplasia [abnormal growth of cells], including pre-cancers, have been reduced approximately 50 percent. This is greater than what was expected -- that's pretty exciting," said lead researcher Cosette Wheeler. She is a professor of pathology and obstetrics and gynecology at the University of New Mexico, in Albuquerque.

### **Popular Painkillers Like Ibuprofen Are Linked to Heart Problems** **September 28, 2016**

Painkillers can be both a blessing and a curse. They're effective at numbing everything from the inflammation that comes with infection to headaches and the achy joints of arthritis. But recent studies have exposed some serious side effects, including increased risk of heart events. The newest class of these drugs, COX-2 inhibitors, seemed especially risky for the heart, leading to the withdrawal from the market of one medication and a Food and Drug Administration warning on others.

### **Statins Linked to Improved Overall Survival in Multiple Myeloma** **September 21, 2016**

In a large cohort of US veterans with multiple myeloma, statin therapy was associated with a decreased risk of all-cause and cancer-specific mortality, according to a study published in the Journal of Clinical Oncology. Statins are active in 1 of the pathways affected by nitrogen-containing bisphosphonates, which have been linked to prolonged survival among patients with multiple myeloma. Researchers evaluated the association between statin use and mortality in a cohort of patients with myeloma.

### **Prescription painkillers are more widely used than tobacco, new federal study finds** **September 20, 2016**

More than 1 in 3 American adults -- 35 percent -- were given painkiller prescriptions by medical providers last year. The total rate of painkiller use is even higher -- 38 percent -- when you factor in the number of adults who obtained painkillers for misuse via other means, from friends or relatives, or via drug dealers.

### **Amgen cholesterol drug reduces arterial plaque buildup: study** **September 20, 2016**

Amgen said on Tuesday its potent new cholesterol fighter, Repatha, met the primary and secondary goals of a study designed to show it can decrease plaque buildup in heart arteries of patients already

taking widely used statin drugs, such as Lipitor. The biotechnology company, whose shares were up 1.6 percent, will present detailed data from the study at a major heart conference in November.

### **Amgen-UCB bone drug cuts fractures in osteoporosis for older women** **September 19, 2016**

New data for Amgen and UCB's bone drug romosozumab (aka romo) showed it could help lower certain fractures in older women as it awaits an FDA approval decision next year. In new figures posted in The New England Journal of Medicine, the two companies said their co-developed experimental med romo "significantly reduced the incidence of vertebral fractures in postmenopausal women with osteoporosis" through one and two years, hitting its co-primary endpoints.

### **Novartis intensifies Entresto push with new analysis** **September 19, 2016**

Novartis on Monday intensified its bid to convince doctors to prescribe its heart failure drug Entresto, releasing an analysis that concluded the medicine contributed to higher quality of life scores compared with an older drug. The decline in health-related quality of life scores among patients hospitalized with reduced ejection fraction heart failure was less steep among Entresto patients compared to those taking the drug enalapril, Switzerland's Novartis said in a statement.

### **Biosimilars Face Repercussions of Drug Pricing Debate** **September 18, 2016**

As more biosimilars gain FDA approval for marketing in the U.S., and more manufacturers launch programs to develop additional competitive biotech therapies, concerns have emerged that continued growth in this area could be limited by mounting pressure to push down on prescription drug outlays. Even though payers and insurers anticipate savings from alternative biotech therapies, the threat is that aggressive cost-cutting measures could raise the demand for truncated biosimilar development, eroding the confidence of physicians and patients about biosimilar safety and efficacy.

# CURRENT DRUG SHORTAGES

---

## Tobramycin Injection

September 20, 2016

### Reason of Shortage

- Akorn has recently launched tobramycin solution for injection.
- Fresenius Kabi has tobramycin solution for injection on shortage due to increased demand.
- Mylan Institutional could not provide a reason for the shortage.
- Teva has tobramycin solution for injection on shortage due to manufacturing delays

### Estimated Resupply Dates

- Akorn has tobramycin 40 mg/mL 30 mL vials on back order and the company estimates a release date of early-November 2016.
- Teva has tobramycin 40 mg/mL solution for injection on long term back order and the company estimates a release date of October 2016.
- Mylan Institutional has tobramycin 40 mg/mL 30 mL vials on back order and the company estimates a release date of mid-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=701>

## Mupirocin Calcium 2% Cream

September 20, 2016

### Reason of Shortage

- GlaxoSmithKline could not provide a reason for the shortage.
- Prasco discontinued mupirocin calcium 2% cream in February 2016.

### Estimated Resupply Dates

- GlaxoSmithKline has Bactroban 2% cream in 15 gram and 30 gram sizes on back order and the company estimates a release date of 1st quarter 2017.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1206>

## Leflunomide Tablets

September 20, 2016

### Reason of Shortage

- Apotex did not provide a reason for the shortage.
- Heritage states the shortage is due to a delay in obtaining active ingredient.
- Sanofi-Aventis has Arava available.
- Winthrop has leflunomide tablets available.
- Trigen has leflunomide tablets available.

### Estimated Resupply Dates

- Apotex has leflunomide 10 mg and 20 mg tablets on allocation.

- Heritage has leflunomide 10 mg and 20 mg tablets on tight allocation

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=711>

### Haemophilus B Conjugate Vaccine

September 20, 2016

#### Reason of Shortage

- GlaxoSmithKline relaunched Hiberix in August 2016.
- Sanofi Pasteur has ActHIB in short supply due to the shortage of other combination vaccines (eg, Pentacel).
- Merck has PedvaxHIB (Haemophilus b meningococcal protein conjugate vaccine) available.

#### Estimated Resupply Dates

- Sanofi Pasteur has ActHib vaccine on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1052>

### Ethiodized Oil

September 20, 2016

#### Reason of Shortage

- Guerbet states their Lipiodol product is in short supply due to manufacturing problems at Jubliant HollisterStier, the manufacturing site in Canada that supplies Lipiodol for Guerbet. The company estimates the shortage will last at least one year.

#### Estimated Resupply Dates

- Guerbet is shipping supplies of Lipiodol Ultra-Fluide.2 Lipiodol Ultra-Fluide is not FDA approved. In order to prevent a drug shortage, FDA is allowing Guerbet to import Lipiodol Ultra-Fluide, a product manufactured for Guerbet in France by Delpharm Tours.
- Customers must order Lipiodol Ultra-Fluide directly from Guerbet by calling 1-877-729-6679. Lipiodol Ultra-Fluide is non-refundable and may not be resold.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=618>

### Dexamethasone Sodium Phosphate

September 20, 2016

#### Reason of Shortage

- American Regent has dexamethasone sodium phosphate on shortage due to manufacturing delays.
- AuroMedics has dexamethasone sodium phosphate on intermittent back order.
- Fresenius Kabi has most dexamethasone sodium phosphate presentations available.
- West-Ward has dexamethasone sodium phosphate available.
- Mylan Institutional has dexamethasone sodium phosphate available.

### **Estimated Resupply Dates**

- American Regent has dexamethasone sodium phosphate 4 mg/mL products on back order and the company cannot estimate a release date.
- AuroMedics has all dexamethasone sodium phosphate presentations on intermittent back order and the company is releasing product as it becomes available.
- Fresenius Kabi has dexamethasone 4 mg/mL 1 mL vials on back order and the company estimates a release date of late-September 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=751>

### **BCG Vaccine Live Intravesical**

**September 20, 2016**

#### **Reason of Shortage**

- Sanofi Pasteur states the reason for the shortage is manufacturing delay.
- Merck states the reason for the shortage was increased demand. Merck has Tice BCG readily available.

#### **Estimated Resupply Dates**

- Sanofi Pasteur has TheraCys 81 mg vials for intravesical injection on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=915>

### **Potassium Chloride Injection**

**September 21, 2016**

#### **Reason of Shortage**

- Baxter has a consistent supply of potassium chloride injection.
- Fresenius Kabi has some potassium chloride injection available.
- Hospira has potassium chloride injection on shortage due to increase demand and manufacturing delays.

#### **Estimated Resupply Dates**

- Hospira has potassium chloride 2 mEq/mL 250 mL vials, 30 mEq/15 mL vials, and 10 mEq/500 mL in 5% dextrose and 0.225% sodium chloride on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=696>

### **Hydralazine Injection**

**September 21, 2016**

#### **Reason of Shortage**

- Akorn did not provide a reason for the hydralazine injection on shortage.
- American Regent has hydralazine injection on shortage due to manufacturing delays.

- Fresenius Kabi has hydralazine injection available.
- X-Gen launched hydralazine injection in September 2015.

**Estimated Resupply Dates**

- Akorn has hydralazine 20 mg/mL 1 mL vials in 10 count and 25 count available with expiration dates of July or August 2017.
- American Regent has hydralazine 20 mg/mL 1 mL vials on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1129>

**Erythromycin Lactobionate Injection**

**September 22, 2016**

**Reason of Shortage**

- Pfizer (Hospira) has Erythrocin on shortage due to manufacturing delays.

**Estimated Resupply Dates**

- Pfizer (Hospira) has Erythrocin 500 mg vials on back order and the company estimates a release date of early-November 2016. The 500 mg ADD-Vantage vials are on intermittent back order with regular releases.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=546>

**Methylprednisolone Sodium Succinate Injection**

**September 26, 2016**

**Reason of Shortage**

- Fresenius Kabi states the reason for the shortage was increased demand.
- Pfizer states the reason for the shortage was manufacturing delay.

**Estimated Resupply Dates**

- All presentations are currently available.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1077>

**Calcium Gluconate Injection**

**September 26, 2016**

**Reason of Shortage**

- American Regent has calcium gluconate on shortage due to manufacturing delays.
- Fresenius Kabi has calcium gluconate available.
- American Regent has issued a statement that all lots of calcium gluconate may contain glass particles and filters must be used. Do not use if there are visible glass particles and filter all other product.

### **Estimated Resupply Dates**

- American Regent has calcium gluconate 100 mg/mL 50 mL and 100 mL vials on back order and the company cannot estimate a release date.
- Fresenius Kabi has calcium gluconate 100 mg/mL 50 mL vials available with expiration dates of <9 months

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=48>

### **Caffeine and Sodium Benzoate Injection**

**September 26, 2016**

#### **Reason of Shortage**

- American Regent could not provide a reason for the shortage of caffeine and sodium benzoate injection.<sup>1</sup>
- American Regent is the sole manufacturer of caffeine and sodium benzoate injection.

#### **Estimated Resupply Dates**

- American Regent has caffeine and sodium benzoate 2 mL vials available.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=817>

### **Ammonium Molybdate Injection**

**September 26, 2016**

#### **Reason of Shortage**

- American Regent has ammonium molybdate injection on shortage due to manufacturing delays.
- American Regent is the sole supplier of ammonium molybdate injection.

#### **Estimated Resupply Dates**

- American Regent has ammonium molybdate injection on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1003>

### **Zolpidem Tartrate Immediate Release Tablets**

**September 27, 2016**

#### **Reason of Shortage**

- Aurobindo has all presentations listed as inactive.
- Major discontinued zolpidem tartrate immediate release tablets.
- Mylan has most zolpidem presentations available.
- Sandoz has zolpidem available.
- Torrent has zolpidem available.
- Sanofi-Aventis has Ambien available.

#### **Estimated Resupply Dates**

- Mylan has zolpidem 5 mg tablets in 500 count on back order and the company estimates a release date of mid-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1219>

### Yellow Fever Vaccine Injection

September 27, 2016

#### Reason of Shortage

- Sanofi Pasteur could not provide a reason for the shortage of YF-Vax.1
- There are no other suppliers of yellow fever vaccine.
- Additional information is available

#### Estimated Resupply Dates

- Sanofi Pasteur has YF-Vax multi-dose vials and single dose vials available in limited supply. Customers can call Sanofi Pasteur to order product for patients traveling in the next 30 days.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=383>

### Thiotepa for Injection

September 27, 2016

#### Reason of Shortage

- West-Ward launched thiotepa in August 2015.
- FDA was allowing temporary importation of Tepadina (thiotepa), from Adienne SA in Italy. There may still be product available at some healthcare centers but importation stopped in December 2015. The solution is similar in formulation to US thiotepa. The main differences between the two products are listed below.
- Tepadina comes in 15 mg and 100 mg vials while the US thiotepa from Bedford only comes in a 15 mg vial. Reconstitution of the products should still yield a final concentration of 10 mg/mL and therefore use caution in choosing vial size and volume of diluent.
- Tepadina is indicated for different uses and therefore different dosing regimens are on the Europe labeling compared to US labeling, but it is the same product as in the US.
- The bar coding for the Italian product will not provide correct information to bar code readers since the manufacturing code is not an NDC number.

#### Estimated Resupply Dates

- West-Ward has thiotepa available with an expiration date of < July 2017.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=589>

### Sodium Phosphate Injection

September 27, 2016

#### Reason of Shortage

- American Regent has sodium phosphate injection on shortage due to manufacturing delay.

- Fresenius Kabi states the reason for the shortage was increased demand.
- Hospira had sodium phosphate injection on shortage due to manufacturing delay.

#### **Estimated Resupply Dates**

- American Regent has sodium phosphate 3 mmol/mL 5 mL, 15 mL, and 50 mL vials on back order and the company cannot estimate a release date.
- Fresenius Kabi has imported Glycophos available with an expiration date of <6 months.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=770>

### **Piperacillin Tazobactam Injection**

**September 27, 2016**

#### **Reason of Shortage**

- Apotex has piperacillin/tazobactam on shortage due to regulatory delays.
- AuroMedics and Sandoz could not provide a reason for the shortage.
- Baxter has Zosyn frozen premixes on allocation due to increased demand.
- Fresenius Kabi has piperacillin/tazobactam on shortage due to increased demand.
- Mylan Institutional launched piperacillin/tazobactam 3.375 gram and 4.5 gram vials in early-June 2016.
- Pfizer has Zosyn on shortage due to manufacturing delays.
- Sagent has piperacillin/tazobactam on shortage due to increased demand.
- Sandoz discontinued piperacillin/tazobactam in late 2015.
- WG Critical Care states the reason for the shortage is increased demand.

#### **Estimated Resupply Dates**

- Apotex has piperacillin/tazobactam 2.25 gram and 4.5 gram vials on back order and the company cannot estimate a release date. The 3.375 gram and 40.5 gram vials are on back order and the company estimates a release date of mid-October 2016.
- AuroMedics has piperacillin/tazobactam on intermittent back order and the company is releasing product as it becomes available. Check wholesalers for inventory.
- Fresenius Kabi has piperacillin/tazobactam 2.25 gram, 3.375 gram, and 40.5 gram vials on intermittent back order and the company is releasing product as it becomes available. The 4.5 gram vials are on back order and the company estimates a release date of early-November 2016.
- Hospira has piperacillin/tazobactam 2.25 gram vials on intermittent back order and the company is releasing product as it becomes available. The 3.375 gram vials are available in limited supply.
- Pfizer has Zosyn 2.25 gram vials, 3.375 gram vials, 4.5 gram vials, and 40.5 gram vials on back order and the company estimates a release date of January 2018.
- Sagent has piperacillin/tazobactam 3.375 gram and 4.5 gram vials on allocation.
- WG Critical Care has piperacillin/tazobactam 2.25 gram, 3.375 gram, 4.5 gram, and 40.5 gram vials on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1075>

## Lidocaine Injection

September 27, 2016

### Reason of Shortage

- Amphastar had lidocaine 2% emergency syringes on shortage due to increase demand for the product.
- AuroMedics introduced lidocaine injection in February 2014.
- Fresenius Kabi has generic lidocaine presentations on shortage due to a supply interruption of API. Xylocaine products are not affected.
- Hospira has lidocaine presentations on shortage due to manufacturing delays and increased demand.

### Estimated Resupply Dates

- AuroMedics has 1% lidocaine 5 mL ampules on intermittent back order and the company is releasing product as it becomes available. AuroMedics has 2% lidocaine 5 mL vials on intermittent back order and the company is releasing product as it becomes available.
- Fresenius Kabi has 1% lidocaine 2 mL and 10 mL vials on back order and the company estimates a release date of mid-October 2016 for the 2 mL vials and late-September for the 10 mL vials. The 2% lidocaine 2 mL and 5 mL vials are on back order and the company estimates a release date of mid-October 2016 for the 2 mL vials and late-September 2016 for the 5 mL vials. The 1% Xylocaine-MPF 10 mL sterile-pack vials are on back order and the company estimates a release date of early-November 2016. The 1% Xylocaine 20 mL vials are on intermittent back order and the company is releasing product as it becomes available. The 2% Xylocaine 20 mL and 50 mL vials are on intermittent back order and the company is releasing product as it becomes available.
- Hospira has 1% lidocaine 30 mL vials, preservative free, in sterile pack on back order and the company cannot estimate a release date. The 0.5% lidocaine 50 mL vials and 1% lidocaine 20 mL and 50 mL vials are available in limited supply. The 2% lidocaine 50 mL vials are on back order and the company estimates a release date of late-September 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=701>

## Indomethacin Capsules

September 27, 2016

### Reason of Shortage

- Heritage and Teva did not provide a reason for the shortage.
- Sandoz discontinued indomethacin in mid-2016.

### Estimated Resupply Dates

- Heritage has indomethacin 50 mg capsules in 100 count and 500 count on back order and the company estimates a release date of mid-October 2016. The 25 mg capsules in 100 count and 1000 count are on allocation.
- Teva has all indomethacin presentations temporarily unavailable and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1236>

## Flumazenil Injection

September 27, 2016

### Reason of Shortage

- Fresenius Kabi had flumazenil on shortage due to short-term manufacturing delays.
- Mylan Institutional cannot provide a reason for the shortage.
- Sandoz discontinued flumazenil injection in 2015.
- West-Ward states the reason for the shortage is increased demand. West-Ward is not actively marketing flumazenil 5 mL (NDC 00641-6032-10) and 10 mL (NDC 00641-6031-10) vials. Alternate NDCs are available.

### Estimated Resupply Dates

- Mylan Institutional has flumazenil 0.1 mg/mL 5 mL vials on back order and the company estimates a release date of late-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1184>

## Ferrous Sulfate Oral Pediatric Drops

September 27, 2016

### Reason of Shortage

- Several liquid products were affected by a recall from PharmaTech due to potential contamination from *B. cepacia*. These included the ferrous sulfate liquid products from Akorn and Major. FDA issued a MedWatch report with the products affected.

### Estimated Resupply Dates

- Akorn has RX Choice Ferrous Sulfate 15 mg/mL 50 mL bottles on back order and the company estimates a release date in late-October 2016.
- Major has Fer-Iron and generic ferrous sulfate 15 mg/mL 50 mL bottles on back order and the company estimates a release date in mid-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1246>

## Etomidate Injection

September 27, 2016

### Reason of Shortage

- American Regent had etomidate injection on shortage due to manufacturing delays.
- Ben Venue stopped production in its plant in Bedford, Ohio and closed in July 2014.
- Hospira has Amidate on shortage due to manufacturing delays.
- Par Sterile Products discontinued etomidate in early 2015.
- Sagent is no longer marketing etomidate.

### Estimated Resupply Dates

- Hospira has etomidate 20 mL LifeShield syringes, 10 mL ampules, and 20 mL ampules on back order and the company cannot estimate a release date.

- Mylan Institutional has etomidate 20 mL vials on back order and the company estimates a release date of early-December 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=419>

### **Dextrose (50%) Injection**

**September 27, 2016**

#### **Reason of Shortage**

- Amphastar had 50% dextrose injection on shortage due to increased demand.
- Hospira has 50% dextrose injection on shortage due to increased demand and manufacturing delays.

#### **Estimated Resupply Dates**

- Hospira has 50% dextrose 50 mL vials available in limited supply with regular releases.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1012>

### **23.4% Sodium Chloride Concentrated Solution for Injection**

**September 27, 2016**

#### **Reason of Shortage**

- Fresenius Kabi had sodium chloride concentrated solution on shortage due to increased demand.
- Hospira has 23.4% sodium chloride solutions for injection on shortage due to increased demand.

#### **Estimated Resupply Dates**

- Hospira has 23.4% sodium chloride 250 mL bulk containers on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1194>

### **Leucovorin Calcium Injection**

**September 29, 2016**

#### **Reason of Shortage**

- Fresenius Kabi has leucovorin on shortage due to increase demand.
- Teva has leucovorin on allocation due to increased demand.
- West-Ward Pharmaceuticals' parent company, Hikma Pharmaceuticals, acquired leucovorin calcium injection from Bedford in July 2014. West-Ward is not actively marketing leucovorin calcium injection at this time.
- Sagent has leucovorin on shortage due to manufacturing delay.

#### **Estimated Resupply Dates**

- Fresenius Kabi has leucovorin 200 mg and 500 mg vials on allocation.

- Sagent has leucovorin 50 mg vials on back order and the company estimates a release date of October 2016. Leucovorin 200 mg vials are on allocation. The 350 mg vials are available with an expiration date of November 2016.
- Teva has leucovorin 100 mg vials on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=488>

### **Tetracaine Hydrochloride Ophthalmic Drops**

**October 4, 2016**

#### **Reason of Shortage**

- Alcon and OCuSOFT did not provide a reason for the shortage

#### **Estimated Resupply Dates**

- Alcon has tetracaine 0.5% ophthalmic drops in 2 mL bottles on back order and the company cannot estimate a release date.
- OCuSOFT has Tetravisc 0.5% 5 mL bottles and 0.6 mL unit-dose in 12 count on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1242>

### **Oxytocin Injection**

**October 4, 2016**

#### **Reason of Shortage**

- Fresenius Kabi states the shortage was due to increased demand.
- Par Sterile Products (formerly JHP) discontinued generic oxytocin injection in July 2014. Par Sterile Products discontinued Pitocin 10 unit/mL 50 mL vials in September 2015.
- West-Ward is not actively marketing oxytocin.

#### **Estimated Resupply Dates**

- Fresenius Kabi has oxytocin 10 units/mL 30 mL vials on back order and the company estimates a release date of late-October 2016

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=876>

### **Ketorolac Tromethamine Injection**

**October 4, 2016**

#### **Reason of Shortage**

- BD Rx has ketorolac injection available. BD RX is now part of Fresenius Kabi.
- Fresenius Kabi has ketorolac injection available.
- Hospira has ketorolac injection available.
- Sagent states the reason for the shortage is manufacturing delay.
- West-Ward is not actively marketing ketorolac injection.
- Ben Venue closed its plant in Bedford, Ohio in July 2014.

- FDA imposed an import ban in mid-2013 on several Wockhardt products including ketorolac.
- Sprix Nasal Spray is not affected by this shortage.

**Estimated Resupply Dates**

- Sagent has ketorolac 30 mg/mL 1 mL vials on back order and the company estimates a release date of October 2016. Ketorolac 30 mg/mL 2 mL vials for intramuscular injection are on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=593>

**Diltiazem Extended-Release Capsules (Twice-Daily Dosing)**

**October 4, 2016**

**Reason of Shortage**

- Mylan and Mylan Institutional do not provide a reason for the shortage.

**Estimated Resupply Dates**

- Mylan has diltiazem 60 mg and 120 mg extended-release capsules in 100 count bottles on back order and the company estimates a release date in early-October 2016. Diltiazem 90 mg extended-release capsules in 100 count bottles are on back order and the company estimate a release date in late-October 2016.
- Mylan Institutional has diltiazem 60 mg, 90 mg, and 120 mg extended-release capsules in 100 count blister packs on back order and the company estimates a release date in mid-November 2016 for the 90 mg and 120 mg capsules and late-November 2016 for the 60 mg capsules.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1250>

**Carboplatin Solution for Injection**

**October 4, 2016**

**Reason of Shortage**

- Bedford discontinued carboplatin in May, 2011 to concentrate on the manufacturing of other products.
- Fresenius Kabi has carboplatin on shortage due to increased demand for the product.
- Hospira has carboplatin injection available.
- Mylan Institutional cannot provide a reason for the shortage.
- Sagent states the reason for the shortage is increased demand for the product.
- Sandoz has discontinued carboplatin injection.
- Teva states the reason for the shortage is increased demand for the product.

**Estimated Resupply Dates**

- Fresenius Kabi has carboplatin 45 mL vials on back order and the company cannot estimate a release date.
- Mylan Institutional has all carboplatin injection on back order and the company cannot estimate a release date.

- Sagent has carboplatin 5 mL, 15 mL, and 60 mL vials on back order and the company cannot estimate a release date. Carboplatin 45 mL vials are on allocation.
- Teva has carboplatin 45 mL and 60 mL vials on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1005>

### **Ampicillin Sulbactam**

**October 4, 2016**

#### **Reason of Shortage**

- Mylan Institutional discontinued ampicillin sulbactam 1.5 gram and 3 gram vials.
- Pfizer (Hospira) has discontinued their generic ampicillin sulbactam products.
- Sandoz cannot provide a reason for the shortage.
- Sagent has ampicillin sulbactam vials on allocation due to increased demand for the product.
- WG Critical Care states the shortage is due to increased demand.

#### **Estimated Resupply Dates**

- AuroMedics has ampicillin sulbactam 3 gram and 15 gram vials on intermittent back order and the company is releasing product as it becomes available.
- Fresenius Kabi has ampicillin sulbactam 1.5 gram, 3 gram, and 15 gram vials on back order and the company cannot estimate a release date.
- Sagent has ampicillin sulbactam 1.5 gram and 15 gram vials on back order and the company estimates a release date of October 2016. The 3 gram vials are on allocation.
- Sandoz has ampicillin sulbactam 1.5 gram, 3 gram, and 15 gram vials temporarily unavailable and the company cannot estimate a release date.
- West-Ward has ampicillin sulbactam 1.5 gram and 3 gram vials on a weekly allocation. The 15 gram vials are on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=805>

### **Octreotide Injection**

**October 5, 2016**

#### **Reason of Shortage**

- Fresenius Kabi did not provide a reason for the shortage.
- Sagent has octreotide on shortage due to manufacturing delays.
- Teva is relaunching several presentations this year.
- Sun Pharm did not provide a reason for the shortage.

#### **Estimated Resupply Dates**

- Fresenius Kabi has octreotide 50 mcg/mL 1 mL vials on back order and the company estimates a release date of 1st quarter 2017.
- Sagent has octreotide 50 mcg/mL 1 mL vials and 200 mcg/mL 5 mL vials on allocation.
- Sun Pharma cannot provide availability information at this time.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=803>

## Multiple Vitamins for Infusion

October 5, 2016

### Reason of Shortage

- Hospira states the shortage is due to manufacturing delays.
- Baxter has all presentations fully available at this time.

### Estimated Resupply Dates

- Hospira has MVI Adult 10 mL two-chambered vials, MVI-12 without vitamin K 50 mL Dual vials, and MVI Adult 50 mL Dual vials on back order and the company cannot estimate a release date. The MVI Adult 5 mL Dual vials are on back order and the company estimates a release date of late-4th quarter 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1242>

## Methylene Blue Injection

October 5, 2016

### Reason of Shortage

- Akorn has methylene blue on shortage due to manufacturing delays.
- American Regent has recently launched an FDA approved presentation, ProvayBlue.

### Estimated Resupply Dates

- Akorn has methylene blue on allocation.
- American Regent has ProvayBlue 5 mg/mL 10 mL ampules available.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=27>

## Dihydroergotamine Mesylate Injection

October 5, 2016

### Reason of Shortage

- Perrigo and Valeant did not provide a reason for the shortage.

### Estimated Resupply Dates

- Perrigo has dihydroergotamine 1 mg/mL 1 mL ampules in 5 count and 10 count on back order and the company estimates a release date of January 2017 for the 5 count and mid-November 2016 for the 10 count presentations.
- Valeant has D.H.E. 45 1 mg/mL 1 mL ampules on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1050>

## Thrombin Topical Solution (Bovine)

October 8, 2016

### Reason of Shortage

- Pfizer states the reason for the shortage is manufacturing delay.
- Recombinant thrombin topical solution products (Recothrom) are available and not affected by this shortage.

### Estimated Resupply Dates

- Pfizer has Thrombin JMI 5,000 unit syringe spray kits on back order and the company estimates a release date of mid-October 2016. Thrombin JMI 5,000 unit epistaxis kits are on back order and the company estimates a release date of November 2016

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1199>

## Sodium Acetate Injection

October 8, 2016

### Reason of Shortage

- American Regent has sodium acetate injection on back order due to manufacturing delays.
- Fresenius Kabi has sodium acetate injection available.
- Hospira had sodium acetate injection on back order due to increased demand.

### Estimated Resupply Dates

- American Regent has sodium acetate 2 mEq/mL 20 mL vials and 4 mEq/mL 50 mL vials on long-term back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=762>

## Potassium Acetate Injection

October 8, 2016

### Reason of Shortage

- American Regent has potassium acetate on shortage due to manufacturing delays.
- Hospira had potassium acetate on shortage due to increased demand.
- Exela received FDA approval for potassium acetate injection in late-December 2015. Exela has potassium acetate injection available.

### Estimated Resupply Dates

- American Regent has potassium acetate 2 mEq/mL 20 mL vials and 4 mEq/mL 50 mL vials on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=668>

## Penicillin G Benzathine/Penicillin G Procaine

October 8, 2016

### Reason of Shortage

- Pfizer has Bicillin C-R and Bicillin C-R 900/300 on shortage due to manufacturing delays.

### Estimated Resupply Dates

- Pfizer has Bicillin C-R 1,200,000 units/2 mL prefilled syringes on back order and 1,200,000 units/2 mL pediatric prefilled syringes on back order and the company estimates a release date of late-December 2016.
- Pfizer has Bicillin C-R 900/300 2 mL pediatric prefilled syringes on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1249>

## Penicillin G Benzathine

October 8, 2016

### Reason of Shortage

- Pfizer states the shortage is due to a delay in the manufacturing process.

### Estimated Resupply Dates

- Pfizer has Bicillin L-A 600,000 unit/ 1 mL syringes, 1,200,000 unit/ 2 mL syringes, and 2,400,000 unit/ 4 mL syringes on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1232>

## Morphine Injections

October 8, 2016

### Reason of Shortage

- Astramorph injection has been unavailable since 2012. Fresenius Kabi changed manufacturing sites and cannot estimate if Astramorph will return.
- Hospira states the shortage is due to manufacturing delays.
- West-Ward launched several new morphine sulfate products in late-September 2015. They are not actively marketing the 15 mg/mL 1mL vials.

### Estimated Resupply Dates

- Hospira has morphine 2 mg/mL 1 mL iSecure syringes on intermittent back order and the company is releasing product as it becomes available. Morphine 25 mg/mL 4 mL and 10 mL ADD-Vantage vials are on back order and the company cannot estimate a release date.
- BD Rx has morphine 8 mg/mL 1 mL syringes on back order and the company estimates a release date of late-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=664>

## Magnesium Sulfate Injection

October 8, 2016

### Reason of Shortage

- American Regent has had magnesium sulfate unavailable since late 2012.
- Fresenius Kabi has magnesium sulfate injection on shortage due to increased demand for the product. The company has launched 2 new NDC codes for magnesium sulfate 20 mL and 50 mL vials (these replace the older codes of the 20 mL (NDC 63323-0064-20) and 50 mL (NDC 63323-0064-50) vials).
- Hospira has magnesium sulfate injection on shortage due to manufacturing delays.
- X-Gen has magnesium sulfate injection on shortage due to increased demand.

### Estimated Resupply Dates

- Fresenius Kabi has magnesium sulfate 500 mg/mL 10 mL, 20 mL, and 50 mL vials on intermittent back order and the company is releasing product as it becomes available.
- Hospira has magnesium sulfate 500 mg/mL 20 mL vials on back order and the company estimates a release date of 1st quarter 2018.
- X-Gen has magnesium sulfate 500 mg/mL 10 mL vials on intermittent back order and the company is releasing product as it becomes available.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=757>

## Cisplatin Injection

October 8, 2016

### Reason of Shortage

- Fresenius Kabi did not provide a reason for the shortage.
- Mylan Institutional could not provide a reason for the shortage.
- Teva was allocating cisplatin to prevent stockpiling.
- WG Critical Care could not provide a reason for the shortage.

### Estimated Resupply Dates

- Mylan Institutional has cisplatin 50 mL and 100 mL vials on back order and the company cannot estimate a release date.
- Fresenius Kabi has cisplatin 200 mL vials available with short expiration dating (< 8 months).

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=57>

## Cefotaxime Injection

October 8, 2016

### Reason of Shortage

- Hospira has discontinued Claforan. Sanofi-Aventis manufactured Claforan for Hospira and is no longer making the product.
- Baxter discontinued Claforan in late-2015.
- West-Ward has cefotaxime on shortage due to increased demand

### **Estimated Resupply Dates**

- West-Ward has cefotaxime 500 mg, 1 gram, 2 gram, and 10 gram vials on long-term back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=826>

### **Atropine Sulfate Injection**

**October 8, 2016**

#### **Reason of Shortage**

- Hospira states the shortage was due to manufacturing delays.

### **Estimated Resupply Dates**

- Hospira has atropine 0.1 mg/mL 10 mL Ansyng syringes and 0.05 mg/mL 5 mL Ansyng syringes on back order and the company estimates a release date of late-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=814>

### **Vitamin E Aqueous Oral Solution**

**October 11, 2016**

#### **Reason of Shortage**

- Hospira is changing manufacturing sites from a 3rd party manufacturer to in-house manufacturing. This has caused a delay in production.
- Geritrex could not provide a reason for the vitamin E drops shortage.
- Silarx could not provide a reason for the vitamin E drops shortage.

### **Estimated Resupply Dates**

- Hospira has both Aquasol E Drop products on back order and the company cannot estimate a release date.
- Geritrex has vitamin E drops on back order and the company cannot estimate a release date.
- Silarx has vitamin E drops on back order and the company estimates a release date in mid-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=965>

### **Vitamin C**

**October 11, 2016**

#### **Reason of Shortage**

- Rugby has vitamin C oral syrup on back order due to a product recall from PharmaTech. More information is available on the FDA website.

### **Estimated Resupply Dates**

- Rugby has vitamin C oral syrup on back order, and the company estimates a resupply date of late-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1251>

### **Poliovirus Vaccine Inactivated**

**October 11, 2016**

#### **Reason of Shortage**

- Sanofi Pasteur has IPOL vaccine on allocation due to the shortage of other combination vaccines (e.g., Pentacel).

#### **Estimated Resupply Dates**

- Sanofi Pasteur has IPOL vaccine on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1228>

### **Methylphenidate Transdermal**

**October 11, 2016**

#### **Reason of Shortage**

- Noven has Daytrana patches on shortage due to shipping delays.

#### **Estimated Resupply Dates**

- Noven has all Daytrana presentations on intermittent back order and the company is releasing supplies as they become available.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1216>

### **Gadoteridol Injection**

**October 11, 2016**

#### **Reason of Shortage**

- Bracco diagnostics could not provide a reason for the shortage.

#### **Estimated Resupply Dates**

- Bracco diagnostics has ProHance 15 mL and 20 mL vials on allocation. ProHance 10 mL vials are on back order and the company estimates a release date in mid-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1237>

### **Tigecycline Injection**

**October 11, 2016**

#### **Reason of Shortage**

- Pfizer has Tygacil on shortage due to manufacturing delays. The company is supplying 50 mg/5 mL vials during the shortage of the 10 mL vials.

### **Estimated Resupply Dates**

- Pfizer has Tygacil 50 mg/10 mL vials on back order and the company estimates a release date of 2nd quarter 2017.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1218>

### **Promethazine Injection**

**October 12, 2016**

#### **Reason of Shortage**

- Teva states the shortage is due to manufacturing delays.
- West-Ward states the shortage was due to manufacturing delays.
- Hospira discontinued promethazine in 2016.
- X-Gen has promethazine available.

### **Estimated Resupply Dates**

- Teva has all promethazine injection presentations on back order and the company estimates a release date of January 2017.
- West-Ward has promethazine 25 mg/mL 1 mL ampules on a weekly allocation. Phenergan 25 mg/mL 1 mL ampules are on back order and the company estimates a release date of October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=654>

### **Nalbuphine Injection**

**October 12, 2016**

#### **Reason of Shortage**

- Hospira has nalbuphine injection on shortage due to manufacturing delays.

### **Estimated Resupply Dates**

- Hospira has nalbuphine 10 mg/mL 1 mL ampules available in limited supply. The 10 mg/mL 10 mL vials are on back order and the company estimates a release date of mid-November 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=665>

### **Flurandrenolide Tape**

**October 12, 2016**

#### **Reason of Shortage**

- Allergan states the shortage is due to manufacturing delays.
- Allergan is the sole supplier of flurandrenolide tape.

### **Estimated Resupply Dates**

- Allergan has Cordran tape on back order and the company estimates a release date of late-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1241>

### Epinephrine Injection

**October 12, 2016**

#### Reason of Shortage

- American Regent discontinued both epinephrine presentations in early 2015.
- Amphastar has epinephrine available.
- BPI Labs has epinephrine available.
- Hospira has epinephrine syringes on shortage due to manufacturing delays.
- Par has Adrenalin available.

#### Estimated Resupply Dates

- Hospira has epinephrine 0.1 mg/mL 10 mL 18 gauge Abboject syringes on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=685>

### Ceftazidime Injection

**October 12, 2016**

#### Reason of Shortage

- IGI Laboratories changed its name to Teligent in late-October 2015.
- Covis divested Fortaz injection to IGI Laboratories in October 2015.
- Hospira had Tazicef on shortage due to manufacturing delays.
- Sagent has ceftazidime injection on shortage due to manufacturing delays.
- Sandoz discontinued ceftazidime 1 gram and 2 gram vials in 2015.

#### Estimated Resupply Dates

- Teligent has Fortaz 6 gram vials on back order and the company estimates a release date of 1st quarter 2017. The 1 gram/50 mL premixed bags are on back order and the company cannot estimate a release date.
- Sagent has ceftazidime 1 gram, 2 gram, and 6 gram vials on back order and the company estimates a release date of November 2016.
- Hospira has Tazicef 1 gram and 2 gram ADD-Vantage vials on back order and the company estimates a release date of late-October 2016. Tazicef 6 gram vials are on back order and the company estimates a release date of mid-January 2017.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=869>

### Ioversol Injection

**October 13, 2016**

#### Reason of Shortage

- Guerbet could not provide a reason for the Optiray shortage.

### **Estimated Resupply Dates**

- Guerbet has most Optiray products on allocation or back order and the company is releasing supplies as they become available.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1253>

### **Vancomycin Hydrochloride Injection**

**October 14, 2016**

#### **Reason of Shortage**

- Hospira had vancomycin on shortage due to increased demand.
- Fresenius Kabi has vancomycin injection on shortage due to increased demand.
- Mylan Institutional has vancomycin injection available.
- Baxter is allocating vancomycin.
- Sagent had vancomycin injection on allocation due to increased demand.

#### **Estimated Resupply Dates**

- Fresenius Kabi has vancomycin 5 gram and 10 gram vials on intermittent back order and the company is releasing product as it becomes available.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=132>

### **Scopolamine Transdermal Patch**

**October 14, 2016**

#### **Reason of Shortage**

- Baxter has Transderm Scop on shortage due to a manufacturing hold.
- Sandoz has Transderm Scop on shortage due to increased demand.

#### **Estimated Resupply Dates**

- Baxter has Transderm Scop in 10 count on allocation. The 24 count presentation is on back order and the company estimates a release date of October 2016.
- Sandoz has Transderm Scop in 4 count on back order and the company estimates a release date of late-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=837>

### **Procainamide Hydrochloride Injection**

**October 14, 2016**

#### **Reason of Shortage**

- Hospira (Pfizer) has procainamide hydrochloride injection on shortage due to manufacturing delays.

#### **Estimated Resupply Dates**

- Hospira has procainamide 500 mg/mL 2 mL vials on back order and the company estimates a release date of 4th quarter 2018. The 100 mg/mL 10 mL vials are available in limited supply.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=868>

### Indocyanine Green

**October 14, 2016**

#### Reason of Shortage

- Akorn could not provide a reason for the shortage.
- Hub Pharmaceuticals states the reason for the shortage was increased demand.

#### Estimated Resupply Dates

- All marketed presentations are available.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1107>

### Benztropine Injection

**October 14, 2016**

#### Reason of Shortage

- American Regent discontinued benztropine injection in May 2015.
- Fresenius Kabi launched benztropine in September 2016.

#### Estimated Resupply Dates

- All marketed presentations are available.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1042>

### Orphenadrine Citrate Injection

**October 17, 2016**

#### Reason of Shortage

- Akorn has orphenadrine citrate injection on shortage due to manufacturing delays.
- Actavis and Sagent did not provide a reason for the orphenadrine citrate shortage

#### Estimated Resupply Dates

- Actavis has orphenadrine injection on back order and the company cannot estimate a release date.
- Akorn has orphenadrine injection on back order and the company cannot estimate a release date.
- Sagent has orphenadrine injection on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=884>

## Meningococcal Vaccines

October 17, 2016

### Reason of Shortage

- Sanofi Pasteur cannot provide a reason for the shortage.
- GlaxoSmithKline acquired Bexsero and Menveo from Novartis Vaccines and Diagnostics in 2015.
- GlaxoSmithKline did not provide a reason for the shortage.
- Pfizer has Trumenba available.

### Estimated Resupply Dates

- Quadrivalent Meningococcal Polysaccharide Vaccine (MPSV4)
- Sanofi Pasteur has Menomune-A/C/Y/W-135 on back order and the company cannot estimate a release date.
- Meningococcal Group B Vaccine
- GlaxoSmithKline has Bexsero prefilled syringes in 1 count and 10 count on back order and the company estimates a release date in late-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1192>

## Liotrix Tablets

October 17, 2016

### Reason of Shortage

- Thyrolar tablets from Actavis (formerly Forest) are on shortage due to manufacturing changes.

### Estimated Resupply Dates

- Actavis (formerly Forest) has all Thyrolar presentations on long-term back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=24>

## Diphtheria, Tetanus Toxoid, and Acellular Pertussis Vaccine (DTaP)

October 17, 2016

### Reason of Shortage

- Sanofi Pasteur has Daptacel in short supply due to the shortage of other combination vaccines (eg, Pentacel).
- GlaxoSmithKline has Infanrix available.

### Estimated Resupply Dates

- Sanofi Pasteur has Daptacel vaccine on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=922>

## Diphtheria, Tetanus Toxoid, and Acellular Pertussis and Inactivated Poliovirus and Haemophilus B Conjugate Vaccine (DTaP - IPV/Hib)

October 17, 2016

### Reason of Shortage

- Sanofi Pasteur states the reason for the shortage is manufacturing delay.

### Estimated Resupply Dates

- Sanofi Pasteur has Pentacel vaccine on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=921>

## Dibucaine Ointment

October 17, 2016

### Reason of Shortage

- Geritrex and Fougera cannot provide a reason for the shortage.
- Geritrex introduced dibucaine 1% ointment in March 2014.
- Novartis divested the rights for all Nupercainal ointment products to Ducere Pharma in 2013.
- These products are available Over-The-Counter.

### Estimated Resupply Dates

- Fougera has dibucaine ointment on long-term back order and the company cannot estimate a release date.
- Geritrex has dibucaine ointment on back order and the company estimates a release date in late-October 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1074>

## Chlorothiazide Oral Suspension

October 17, 2016

### Reason of Shortage

- Valeant could not provide a reason for the shortage.

### Estimated Resupply Dates

- Valeant has chlorothiazide oral suspension (Diuril) on back order, and the company cannot provide an estimated resupply date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1076>

## Cefepime Injection

October 17, 2016

### Reason of Shortage

- Apotex could not provide a reason for the shortage.

- BBraun has cefepime on allocation due to increased demand.
- Baxter has cefepime on shortage due to increased demand.
- Fresenius Kabi has cefepime injection on shortage due to manufacturing delays.
- Sagent has cefepime injection on shortage due to manufacturing delays.
- WG Critical Care has cefepime injection on shortage due to increased demand.
- Hospira has Maxipime on shortage due to manufacturing delays.
- Sandoz discontinued cefepime injection in early 2016.

#### **Estimated Resupply Dates**

- Apotex has all presentations of cefepime on back order and the company estimates a release date in late-October 2016. Braun has cefepime 1 and 2 gram premixed bags on allocation to contracted customers.
- Baxter has cefepime 1 gram/50 mL and 2 gram/100 mL premixed bags on allocation.
- Fresenius Kabi has cefepime 1 gram and 2 gram vials on back order and the company estimates a release date of 4th quarter 2016.
- Hospira has Maxipime 1 gram ADD-Vantage vials, 2 gram ADD-Vantage vials, and 2 gram vials on allocation. The 1 gram vials are on back order and the company estimates a release date of 1st quarter to 2nd quarter 2017.
- Sagent has cefepime 1 gram and 2 gram vials on back order and the company estimates a release date of November 2016.
- WG Critical Care has cefepime 1 gram and 2 gram vials on back order and the company cannot estimate a release date for the 1 gram vials and estimates a release date of October 2016 for the 2 gram vials.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1176>

### **Acetylcysteine Oral and Inhalation Solution**

**October 17, 2016**

#### **Reason of Shortage**

- American Regent has a consistent supply of acetylcysteine oral and inhalation solution.
- Roxane Labs discontinued acetylcysteine oral and inhalation solution in April 2014.
- Hospira states the reason for the shortage was manufacturing delays.
- Fresenius Kabi states the reason for the shortage was manufacturing delays.

#### **Estimated Resupply Dates**

- American Regent has acetylcysteine solution 100 mg/mL 10 mL vials and 200 mg/mL 10 mL vials on back order and the company cannot estimate a release date. Acetylcysteine 200 mg/mL 30 mL vials are available in limited quantities with a short expiration date (December 2016).

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=932>

## Theophylline Extended-Release Tablets

October 19, 2016

### Reason of Shortage

- Major has discontinued theophylline extended-release tablets.
- Teva cannot provide a reason for the shortage.

### Estimated Resupply Dates

- Teva has theophylline extended-release tablets temporarily unavailable and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1221>

## Sodium Chloride 0.9% Injection Bags

October 19, 2016

### Reason of Shortage

- Baxter discontinued 0.9% sodium chloride 250 mL and 500 mL AVIVA bags. The other presentations are available or on allocation.
- BBraun has 0.9% sodium chloride available for current customers.
- Hospira cites increased demand as the reason for the shortage.
- Fresenius Kabi is no longer importing product.
- Baxter has received FDA approval for 0.9% sodium chloride in Viaflo containers manufactured in an FDA-approved facility in Spain.

### Estimated Resupply Dates

- Baxter has 0.9% sodium chloride in 1000 mL PVC/DEHP-free bags on allocation.
- BBraun has 0.9% sodium chloride in 250 mL, 500 mL, and 1000 mL PVC/DEHP-free bags on allocation.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=993>

## Ranitidine Injection

October 19, 2016

### Reason of Shortage

- West-Ward discontinued ranitidine injection in September 2014.
- Covis had Zantac on shortage due to capacity issues at the manufacturer.
- IGI laboratories acquired Zantac injection from Covis in October 2015.
- Zydus has temporarily discontinued ranitidine injection due to stability issues.
- Oral ranitidine products are not affected by this shortage.

### Estimated Resupply Dates

- Teligent has Zantac 6 mL vials on back order and the company estimates a release date of December 2016.
- Zydus has temporarily discontinued ranitidine injection.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=820>

### **Mannitol Injection**

**October 19, 2016**

#### **Reason of Shortage**

- American Regent has mannitol injection on shortage due to manufacturing delays.
- Hospira had mannitol injection on shortage due to manufacturing delays.

#### **Estimated Resupply Dates**

- American Regent has mannitol 250 mg/mL 50 mL vials on back order and the company cannot estimate a release date.
- Fresenius Kabi has mannitol 250 mg/mL 50 mL vials on back order and the company estimates a release date of late-October to early-November 2016.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=863>

### **Bupivacaine with epinephrine Injection**

**October 19, 2016**

#### **Reason of Shortage**

- Hospira has bupivacaine with epinephrine on shortage due to manufacturing delays.

#### **Estimated Resupply Dates**

- Fresenius Kabi has 0.25% Sensorcaine-MPF with epinephrine 10 mL and 30 mL vials and 0.5% Sensorcaine-MPF with epinephrine 10 mL vials on back order and the company estimates a release date of late-October to early-November 2016.
- Hospira has 0.25% bupivacaine with epinephrine 30 mL vials available in limited supply. The 0.25% bupivacaine with epinephrine 10 mL and 50 mL vials on back order and the company estimates a release date of early-November 2016 for the 10 mL vials and late-December 2016 for the 50 mL vials. The 0.5% bupivacaine with epinephrine 10 mL and 50 mL vials are on back order and the company estimates a release date of early-November 2016 for the 10 mL vials and late-December 2016 for the 50 mL vials. The 30 mL vials are available in limited supply.
- Hospira has 0.25% Marcaine with epinephrine 10 mL vials available in limited supply. The 0.25% Marcaine 30 mL vials are on back order and the company estimates a release date of late-October 2016

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=937>

### **Bupivacaine Injection**

**October 19, 2016**

#### **Reason of Shortage**

- AuroMedics has not provided a reason for the shortage.
- Fresenius Kabi has Sensorcaine on shortage due to increased demand for the product.

- Hospira has bupivacaine on shortage due to manufacturing delays.

**Estimated Resupply Dates**

- AuroMedics has 0.25% bupivacaine 30 mL vials, and 0.5% bupivacaine 30 mL vials on intermittent back order and the company is releasing product as it becomes available.
- Hospira has 0.5% bupivacaine 20 mL ampule sterile packs on back order and the company cannot estimate a release date.
- Hospira has 0.25% Marcaine 50 mL and 0.5% Marcaine 50 mL vials available in limited supply.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=864>

**Amikacin Injection**

**October 19, 2016**

**Reason of Shortage**

- West-Ward launched amikacin injection in 2 mL and 4 mL vials in December 2015.
- Teva has amikacin on shortage due to manufacturing delays. Teva recalled 7 lots in August 2016. The recall details are available on the FDA website.
- Heritage had amikacin injection on shortage due to manufacturing delays.
- Fresenius Kabi launched amikacin in early 2016. Both 2 mL and 4 mL vials are available.

**Estimated Resupply Dates**

- Teva has temporarily discontinued all amikacin presentations and the company cannot estimate a return date.
- West-Ward has amikacin 250 mg/mL 2 mL and 4 mL vials on back order and the company cannot estimate a release date.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1192>

**Dexrazoxane Injection**

**October 21, 2016**

**Reason of Shortage**

- Biocodex USA acquired Totect from Apricus Pharmaceuticals in April 2013.
- Mylan Institutional has dexrazoxane available.
- West-Ward is not actively marketing dexrazoxane injection at this time.

**Estimated Resupply Dates**

- Biocodex USA has not yet started manufacturing Totect and the company cannot estimate when product will be available.
- Pfizer has Zinecard 500 mg vials on back order and the company estimates a release date of 4th quarter 2017.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=415>

## Bleomycin Sulfate Injection

October 21, 2016

### Reason of Shortage

- Fresenius Kabi has bleomycin on back order due to shortage of active pharmaceutical ingredient.
- Hospira has bleomycin on shortage due to increase demand for the product.
- Teva has temporarily discontinued bleomycin.
- FDA is allowing temporary importation of bleomycin sulfate powder for injection 15,000 IU (15 units bleomycin sulfate USP). These vials were manufactured for Amneal Australia. The labeling and bar coding for the imported product is different from the US version. The imported product should be used in the same way as the US product. FDA Dear Healthcare Professional letter. The product should be available to order through major wholesalers.

### Estimated Resupply Dates

- Fresenius Kabi has bleomycin 15 unit vials on allocation. Bleomycin 30 unit vials are on back order and the company estimates a release date of 2nd quarter 2017.
- Hospira has bleomycin 15 unit and 30 unit vials on allocation.
- Teva has bleomycin 15 unit and 30 unit vials on allocation and the company is releasing product regularly.

<http://ashp.org/menu/DrugShortages/CurrentShortages/Bulletin.aspx?id=1233>
